

Zone K On-street Parking Space Inventory and Suggested Improvements

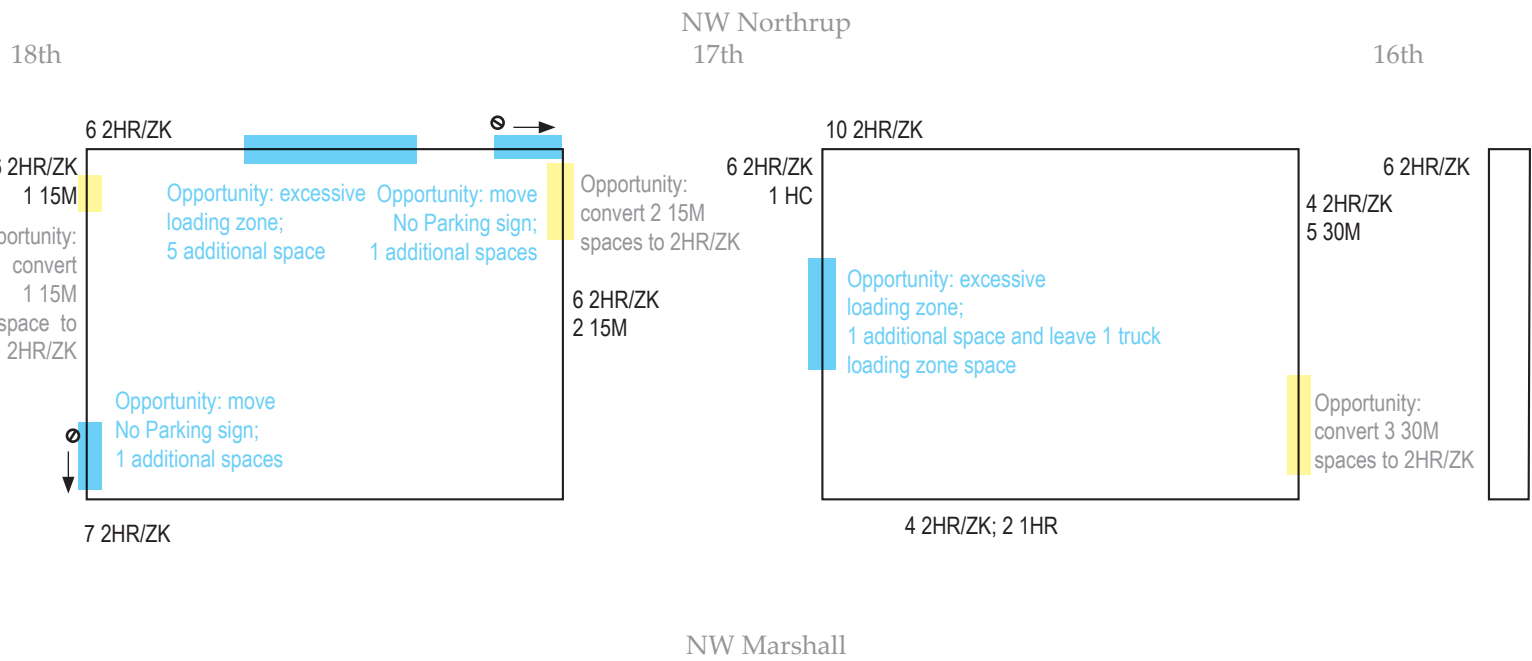

March-June 2017

Prepared by the Area Parking Permit Zone K Committee

The objective of this on-street inventory is to generate a list of actionable items within the Zone K parking permit area for the Portland Bureau of Transportation to implement.

Specifically these items are intended to maximize on-street resources, correct historical aberrations, and change time stays to better fit the needs of the current Zone K permit holders.

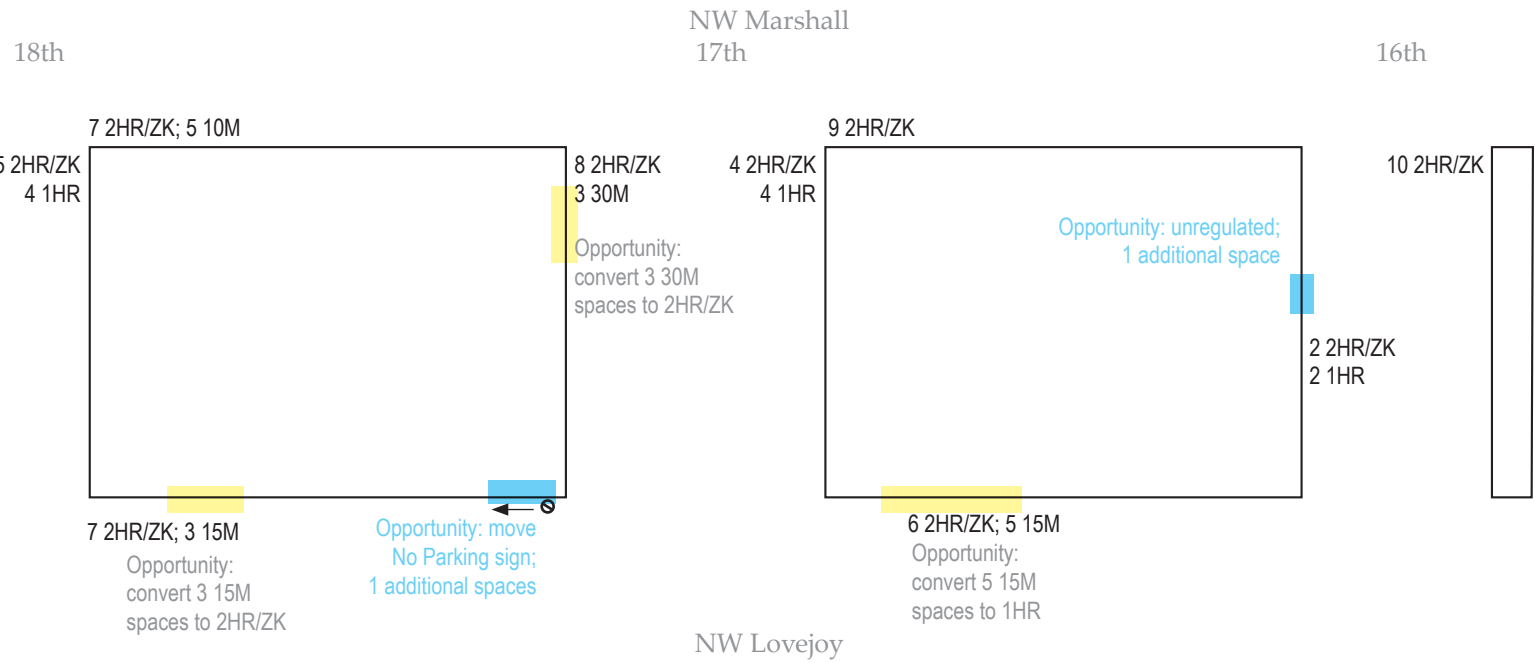

Implementing these items would result in additional on-street spaces, better utilization of on-street spaces and more efficient enforcement.
